

I am writing to notify the FCC that we do not want our Christian radio station which broadcast on a FM station to be taken off the air and replaced with a LPFM. K-Love is vital to our community. It helps by bringing a very postive message over the radio which is badly needed and hard to find. If K-love was removed from the air it would leave many hurting people with no were to go for a uplifting word. we have enough local radio stations sending immorral and filthy messages. Please leave K-Love on the air.
